

1 March 2010

Jack E. Moody, CFM

President

Central Illinois Chapter of IFMA

Dear Jack,

I would like to take this opportunity to express my sincere appreciation for the donation made by your chapter/council/company in my name to the Chicago Challenge, benefiting the IFMA Foundation's Accredited Degree Programs. Initially a kind gesture on the part of the Chicago Chapter of IFMA to donate to a charity of my choice, this has turned into a major campaign providing funding to one of the most important efforts currently being undertaken by the foundation.

Your generous donation will be prudently invested in a program which will continue to magnify the importance of the profession and assure a steady stream of highly-qualified and educated individuals continue entering the facility management field. Under the administration of the IFMA Foundation's Director of Academic Affairs Charles Claar, CFM, I am pleased to advise you that the ADP continues to grow both in the number of programs as well as in serving as a source of knowledge and support for those currently in existence.

As I depart from IFMA to commence the next step in my life journey, I again must tell you how pleased I am to see the level of participation in the challenge. Your donations will serve to benefit the profession we all know and love.

Sincerely,

David J. Brady
